

RESIDENT INSIGHT

Vauxhall Street Block Colours

PCH will be undertaking planned maintenance to the exterior of the blocks at Vauxhall Street, and PCH want to give residents choice of what colour the new block will be as part of the works. PCH believe that giving residents choices when it comes to the look of their property helps with ownership of where they live. Residents were given a palette of 12 colours to choose from.

How we listened

All affected residents and leaseholders were contacted via email, post, and text - to ensure that all properties had the opportunity to provide their opinion

What you said

30% of those consulted responded with their choices of colours offered. Residents favoured 4 colours from the 12 offered from the colour palette provided, with several others selected in the minority.

What we will be doing

PCH will be providing the appointed contractor with the choices made by residents.

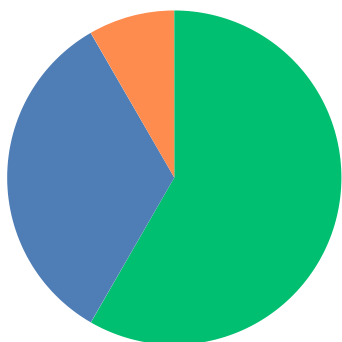

You said, we did

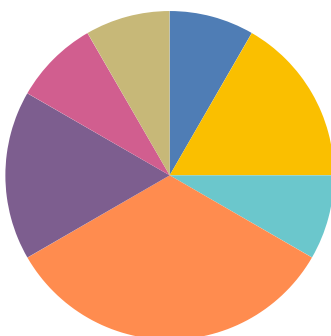

You said: that you favoured 4 of the 12 colours offered, to be chosen as the primary colour for the Vauxhall Street blocks when planned maintenance takes place.

We did: Ensure that these are the colours used by the contractor when undertaking the aforementioned planned maintenance. This is scheduled to take place between September and December 2025.
